Item #1

Mayor Pay called the meeting to order at 4:00 p.m.

Item #2 - ***Public Hearing 2013-2014 Budget and Municipal Road Aid Fund***

The budget totals were available for review and comment. The proposed uses of Municipal Road Aid Funds were also available for public comment. The proposed project was to use \$125,000 for the Maple Street Upgrade.

Evelyn McKemie stated her opinion that the budget does not reflect statements made by the auditor in regards to the allocation of funds between the Water/Sewer Fund and General funds especially dealing with administrative costs.

Mayor Pay replied by commenting that the city has not raised water rates in the past 2 years and that funds were allocated according to where the majority of administrative time was spent

Commissioner Redmon stated that she had been compiling data from other cities regarding their rates and is finding that most rates were increased after rate studies were performed. She also described how her time was heavily spent in water and police matters.

Attorney Dale responded that the water study was not required for pass through cost associated with increases passed on by the Louisville Water Company, and that our previous water rate ordinance supersedes the policy in question.

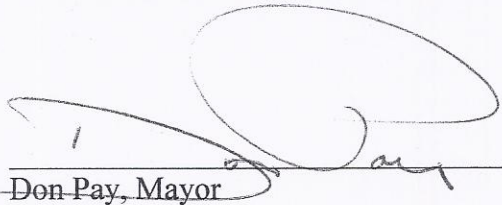

He also stated that Management was responsible for determining the allocation of administrative costs.

Commissioner Proctor expressed his concern for the debt the city was facing and that her comments had been exhaustively discussed in previous meetings.

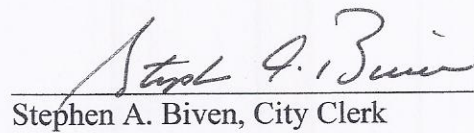

No further public comments were received.
